## PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building scalable full-stack web applications with **JavaScript, React.js, Next.js, Node.js, Express.js,** and **MongoDB**. Hands-on experience designing RESTful APIs with JWT authentication and role-based access control (RBAC), optimizing MongoDB queries, and integrating third-party platforms such as Plaid, Stripe, and Apex Fintech. Skilled in unit testing with Jest, debugging, and performance optimization, with working experience in AWS (Lambda, SES, Secrets Manager) and Redis caching.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
**Backend:** Node.js, Express.js, REST APIs, Microservices, WebSockets, JWT Authentication, RBAC, MVC Architecture, Middleware
**Frontend:** React.js, Next.js (SSR/SSG), Redux, Reusable Component Libraries, Code Splitting
**Databases & Messaging:** MongoDB, MySQL, Redis, Apache Kafka, Event-Driven Architecture
**Cloud & DevOps:** AWS (Lambda, S3, SES, Secrets Manager), Docker, CI/CD (GitHub Actions), Vercel, Netlify, Git, GitHub, Sentry
**Testing & Practices:** Jest, Supertest, Postman (API Testing), Unit & Integration Testing, Debugging, Performance Optimization, Agile/Scrum
**Integrations:** Plaid, Stripe, Apex Fintech, Mailtrap/MailPit

## PROFESSIONAL EXPERIENCE

**SPAN Technology Services Pvt Ltd — Coimbatore, India**

***Software Engineer*** **February 2026 – Present**

- Direct the development team in sprint planning and Agile ceremonies, achieving **100% completion** of sprint deliverables.
- Designed and developed RESTful APIs using Node.js, Express.js, and JWT authentication; optimized MongoDB queries and document schemas, reducing query latency by **35%** for high-frequency operations.
- Enhanced frontend modules, reducing page load times and bounce rates by **20%** through code splitting and lazy loading.
- Configured AWS Secrets Manager to eliminate hard-coded credentials and reduced AWS SES costs by routing test emails through Mailtrap.

***Junior Software Engineer*** **January 2024 – January 2026**

- Engineered full-stack modules that reduced manual data entry by **90%**; designed and integrated the FinCEN BOI E-Filing API for automated compliance submissions.
- Architected a multi-tenant white-label platform that served multiple clients from a single codebase, using Redis caching to reduce configuration-fetch overhead.
- Implemented JWT-based role-based access control (RBAC), decreasing unauthorized access incidents by **99%** across the platform.
- Spearheaded the migration from a monolithic architecture to microservices, improving scalability, fault isolation, and deployment independence.
- Automated AWS SES and Lambda email workflows with retry handling, failure tracking, and delivery monitoring.

***Junior Software Engineer Trainee*** **June 2023 – December 2023**

- Delivered server-side rendered (SSR) Next.js pages, contributing to a **40%** improvement in SEO crawl frequency during peak traffic.
- Created a reusable React component library, accelerating feature development and ensuring UI consistency.
- Optimized database queries and backend logic, improving API response times by **30%** under concurrent load.

## PROJECTS

**WealthRabbit — IRA Management Platform** Node.js, Express.js, Apex Fintech, Plaid, Stripe

- Integrated Apex Fintech, Plaid, and Stripe APIs for secure bank verification, ACH transfers, and retirement account provisioning; built Express middleware for input validation, IRA rule enforcement, and centralized error handling.
- Diagnosed and fixed a **production Kafka issue** (topic name shared with the sandbox) that was blocking data inserts into the admin portal via the Express backend.
- Reworked the users collection and turned business onboarding into a business information collection step for the accountant flow.
- Built 15+ REST APIs with Jest tests (**80%+ coverage**), cutting post-release defects by **30%** for **1,000+ users**.

**Lead Management System** React.js, Node.js, Express.js, MySQL

- Designed the lead-profile and engagement-tracking UI with data visualization, backed by MySQL analytics and reporting queries.

## EDUCATION

**Dr. N.G.P. Institute of Technology, Coimbatore** ***2019 – 2023 | CGPA: 8.4/10***

Bachelor of Engineering in Electronics and Communication Engineering

## CERTIFICATIONS & BADGES

Claude Code 101 — Anthropic **May 2026**
React Front To Back — Udemy **September 2023**
The Complete Node.js Developer Course (3rd Edition) — Udemy **August 2023**
Modern JavaScript From The Beginning 2.0 (2023 Revamp) — Udemy **July 2023**

## AWARDS & RECOGNITION

- Super Star Award — Recognized for handling **complex e-signature agreement workflows** across multiple scenarios and portals.
